1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1, 3-8, 12, 14, 16, 18, and 19 are rejected under 35 U.S.C. 102(e) as being anticipated by McHardy (USPN 6,883,632).

McHardy shows a vehicle having an electrical speed controller. The vehicle includes wheels a drive motor 40, battery 15, and motor controller 14. The controller is responsible to continuous manual input from a rotary input device (hand crank 214). The rotation of the input device is sensed by an encoder or generator (col. 3, lines 1-7, col. 5, lines 1-9). The rotary input device is used for controlling the motor and does not mechanically drive the vehicle. A second encoder (col. 5, lines 6-9) provides feedback from the motor 18.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 2, 13, and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over McHardy.

McHardy fails to teach foot operated pedals and a key-operated circuit breaker. However, it would have been obvious to adapt the McHardy vehicle for foot, rather than hand, operation, in order to accommodate a user with better leg control. It would also have been obvious to one of ordinary skill in the art to provide a circuit breaker in order to disable the vehicle when a key operated switch is not enabled, for vehicle security.

5. Claims 10, 11, and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Applicant's arguments with respect to claims 1-9, 12-14, and 16-19 have been considered but are moot in view of the new ground(s) of rejection.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Sugitani shows a manual controller with a feedback motor 19 responsive to a wheel sensor.

Glaser and Plant show foot operated wheelchairs.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anne Marie M. Boehler whose telephone number is 571-272-6641. The examiner can normally be reached on 7:30-5:00, Monday-Thursday, and alternate Fridays.
